Re: Luis Puerto Rodriguez, Masters Programme in Geographical Information Systems

To Whom It May Concern,

Luis Puerto Rodriguez (born July 29<sup>th</sup>, 1982, Swedish personnummer [REDACTED]) was on September 2, 2013 admitted to our Masters Programme in Geographical Information Systems (iGEON) at the 100% (full-time) study tempo. All courses within this programme are offered by Lund University, Sweden and the University of Twente, the Netherlands.

Our programme operates on a semester basis, with two semesters (Spring and Autumn) in each calendar year. Each semester includes 20 academic weeks, for a total of 40 academic weeks per year. A student engaged in full-time studies is expected to spend 40 hours per week on his or her studies. Please note that all coursework in the iGEON programme is conducted solely in English.

Luis is currently enrolled in the following courses:

- 1) GIS and Statistical Analysis (GISN21) – 5 ECTS – Lund University
- 2) Introduction to Natural Resource Management (NRM) – 10 ECTS – University of Twente
- 3) Mapping and Monitoring Natural Resources (MAP) – 5 ECTS – University of Twente

Luis has completed the following courses in our programme:

- 1) Geographical Information Systems - Introduction (GISA21) – 15 ECTS – Lund University
- 2) Introduction to Remote Sensing (RS) – 10 ECTS – University of Twente

Please feel free to contact me if you have any questions about Luis' studies in our programme.

Best Regards,
